Residential School

English medium boarding school with various facilities and modern education systems that will help students to further develop their creativity.

About Us

Set in a picturesque vicinity in the Indian countryside, Dunes Academy is a proud possessor of a vast stretched area campus, with an amazing landscape, which is magnificently an awe-inspiring location.

2014, Founded in Jodhpur

Dunes Academy is here to help better the future of children so that a brighter future for them, and for the world. They provide opportunities and encouragement for each child's own potential

The three-storied huge building has 27 smart classrooms with every classroom being able to incorporate at most 35 students. Other than the classrooms, the computer laboratory is well-furnished with 40 advanced computers, a wide arena for disabled and physically handicapped students, and an extensive library with a varied assortment of different types of books.

WHY US ?

A clean and comfortable place to study

Smart class with modern technology based education.

Extensive library to make students comfortable while studying

Well equipped computer lab.

The school buses ply timely and are exclusively designated

Healthy and nutritious cafeteria

Well trained and qualified teaching staffs.

Boarding Facility

and much more . . .

Our Mission

Dunes Academy is proud to be employing a well-thought out plan to improve education for the students. There will be several changes for the better in the academic institution, so that the students can receive a richer and more varied form of learning.

"Dunes is dedicated to excellence and a great place for education"

Sports & Athletics

Our school focuses on all round development of children. We focus strongly on sports. On a big play ground, we play indoor and outdoor games. We hold annual Sports day with various sports competitions.

Arts and Crafts

Pursuing arts and crafts has the inherent benefits of encouraging a child to exercise flexible thinking, de-stress, explore his or her individual creativity, and enhance learning through fun, the latter of which is the perfect indication of a healthy education system. We truly believe this will help advance their academic standing and simultaneously promote their overall welfare as well.
